

Scheduling Manager Training

Date: 8/6/26

Opening the Scheduling Manager

1. Opening the Scheduling Manager

- 1 • From the admin portal sidebar, click **Scheduling** to open the Scheduling Manager.
- 2 • The **menu button** in the top-left offers **Back**, **Refresh Page**, and **New Window**.
- 3 • Use the **area dropdown** to choose the area you are scheduling.
- 4 • **Set Mode:** Market is the default provider board and is where events are created.
- 5 • **Service Type** filter is used to filter the board by the providers' Service Type.
- 6 • Set the **date range** with the date picker then click **update**. The board opens on today through one week out.

The screenshot displays the Roshal Health Scheduling Manager interface. On the left is a sidebar with the Roshal Health logo and a menu under 'Operations' containing 'Scheduling' (marked with a red 1), 'Dispatching', 'Remote', and 'Scheduled'. The main area features a top navigation bar with a menu button (2), an 'Area' dropdown set to 'Roshal' (3), a 'Mode' dropdown set to 'Market' (4), a 'Service Type' dropdown set to 'All' (5), and a date range picker showing '07-04-2026' to '07-13-2026' with an 'UPDATE' button (6). Below the navigation bar is a calendar grid for the week of July 26-30, 2026. A list of providers is on the left, including ABRA GREEN (PRN), ABBY LOPEZ (PRN), ABIGAIL UTYRO (FT/PT), ADAM SCHILLER (PRN), ADELL TRUEVILLIAN (PRN), ADINA MONROE (PRN), ADRIAN GUERRERO (FT/PT), ADRIANA BRITTINGHAM (PRN), ADRIANA INGWERSON (PRN), ADRIANA WOKAL (PRN), ADRIENNE FROST (FT/PT), and AFSANEH GHADIMI (PRN). The calendar grid shows various scheduled events, such as '(C) 8 pm - 8 am' and '(AD) 8 am - 8 pm'.

- 1 • Every **row is a provider**, grouped by category, with days across the top.
- 2 • Each scheduled block is a **colored bar** showing a shorthand code plus the hours:
 - **(A)** Available – blue,
 - **(C)** On-Call – orange,
 - **(S)** On-Site – purple
 - **(D)** Dedicated – green,
 - **(AD)** Administrative – lime
 - **(U)** Unavailable – gray,
 - **(T)** Remote – red
- 3 • **Hover** over a colored bar to see a tooltip with the event's full details.
- 4 • A **struck-through** provider name means they are not currently dispatchable.

[illegible]

Creating an Event

3. Creating an Event

- 1 • **Double-click** empty space on a provider's row for the day you want.
- 2 • Pick the **Event Type**: Available, Unavailable, Administrative, On-Call, On-Site, Dedicated, or Remote.
 - **Dedicated** needs at least one facility; **On-Call** allows optional stations.
- 3 • Confirm the **Provider**, then set **Employee Traveling** and a **Travel Market** if needed.
- 4 • Choose the **Activity Type** — On-Call, Shifted, Admin, PTO, Training. The list depends on the provider's market.
- 5 • Select the **Dates**, set the **Start time** and **Duration** in hours
- 6 • Click **Save**.

The screenshot shows a provider selection interface. At the top, there are dropdowns for 'Area' (set to 'Roshal') and 'Mode' (set to 'Market'). Below these is a table with columns for 'Name', 'Su 26', and 'Mo 27'. A list of providers is shown on the left, including NATASHA MCKISSICK (PRN), NATASHA NORMAN (PRN), NATASHA RAMOS (PRN), NATASHA HUGHES (FT/PT), NAZIA RAHMAN (FT/PT) ★, NEHA SHAH (PRN), NELL MCLAIN (FT/PT), NEVA CLARK (PRN), and NGOC NGO (PRN). In the 'Mo 27' column, there is a green slot for '(D) 10 am - 10 p' and an orange slot for '(C) 8 pm - 8 a'. A red circle with the number '1' is placed over the orange slot.

The screenshot shows the 'Create Event' form. It includes the following fields and options:

- Event Type:** A dropdown menu with 'Type' selected.
- Provider:** A dropdown menu with 'Neha Shah' selected.
- Employee Traveling:** A toggle switch that is currently turned off.
- Activity Type:** A dropdown menu with 'On-Call' selected.
- Dates:** A calendar view for May 2026. The date '5/1/26' is selected, indicated by a blue box and a green circle with the number '5'.
- Start:** A time input field set to '12:00 AM'.
- Duration:** A duration input field set to '8.00'.
- Buttons:** 'SAVE' and 'CANCEL' buttons at the bottom right.

Editing Events

4. Editing Events

- 1 • Click any existing event bar to reopen it in the **Edit Event** window.
- 2 • Adjust the **Event Type**, **Activity Type**, **Start** and **End** times if needed
- 3 • Click **Save** to update the event and **Delete** to remove an event

Handling Requests

5. Handling Requests

- 1 • Switch **Mode** to **Requests** to work through availability requests submitted by providers.
- 2 • Filter the list by **Request Status** (Pending, Approved, Declined, All) and **Request Type** (Available, Unavailable, All), or search by provider name.
- 3 • Check the rows you want and click **Approve** or **Decline**. Your comments are saved with the decision.

The screenshot shows the 'View Requests' interface. At the top, there are filters for Area (Roshal), Mode (Requests), Service Type (All), and dates (07-30-2026 to 08-06-2026). Below these are filters for Request Status (Pending) and Request Type (All). A search bar is also present. The main table lists requests with columns: Selected, Status, Name, Type, Start Date, End Date, Reason, and Comments. There are two buttons at the top right: APPROVE and DECLINE.

Selected	Status	Name	Type	Start Date	End Date	Reason	Comments
☐	Pending	Holly Rasmussen	Unavailable	Fri Jul 31 2026	7:00:00 AM	7:00:00 AM	PTO - Personal Time

☐	Pending	Alexandria Vidal	Unavailable	Fri Jul 31 2026	8:00:00 AM	8:00:00 PM	PTO - Personal Time Vacation

EXTRA: What the Remote Event Type Does

6. What the Remote Event Type Does

- 1 • A **Remote** block simply puts the provider **on the schedule** for that window (much like **On-Call**, but for remote work).
- Any order with a delivery type of **Remote** will go to the providers who are on the Remote schedule.
- The provider still has to be **qualified** for the order:
 - **Associated** with the ordering facility.
 - Set up for the order's **service type**, showing they can perform it.
- 2 • From there, dispatching works **exactly the same as on-demand** orders, visible in **Remote Manager**.
- The one difference is that **distance is not taken into account** for remote orders.

The screenshot displays the Roshal Health interface. At the top, there are filters for Area (Roshal), Mode (Market), and Service Type (Wound Care). Below these is a calendar view for July 30, 2026, showing a red block for 'Fr 31' from 8 am to 8 pm, labeled with a red '1'. To the left of the calendar is a list of providers: CHRISTINE PENNINGTON (FT/PT), GRIFFIN PARK, and JENNIFER STEWART (PRN). Below the calendar is a 'Remote Manager' section with a sidebar for Operations (Scheduling, Dispatching, Remote, Scheduled, Shifts, Clinics, Requests, Payroll, Billing, Invoicing) and Reports. The main area shows a summary of orders for the '1 Week' time range: # Orders: 2944, Unassigned: 0, In Process: 39, Completed: 2875, Canceled: 119. Below this is a table of 5 records.

ORDER ID	ORDERED AT	SCHEDULED AT	STATUS	SERVICE TYPE	LOCATION	MRN	PROVIDER	PROVIDER PHONE
ord.390708	2026-08-06 15:41	2026-08-07 09:00	Canceled — Other: test	Ultrasound	Prairie County Hospital District	test6	Emily-Tram Dinh	(972) 992-8176
ord.390574	2026-08-06 09:46	2026-08-07 09:00	Complete	Echocardiogram	Ward Memorial Hospital	430335	Craig Garza	(214) 701-1929
ord.390395	2026-08-05 20:10	2026-08-06 13:00	Complete	Wound Care	Emerus HOP - Horizon City	3180763	Christine Pennington	(703) 851-3725

Overlaid on the right is the 'Create Event' modal, labeled with a red '1'. It contains fields for Event Type (Remote), Provider (Christine Pennington), Employee Traveling (toggle), Activity Type (On-Call), Dates (calendar), Start (12:00 AM), and Duration (8.00). At the bottom are 'SAVE' and 'CANCEL' buttons.

Converting Submitted Availability to Remote

7. Converting Submitted Availability to Remote

- Providers can only submit **Available** or **Unavailable** — the app has no Remote option.
- As the admin you should:
 - Approve** the availability request as usual (happens automatically). It lands on the board as a **blue (A) Available block**.
 - If those hours are meant for remote work, double-click the block to open **Edit Event**.
 - Change Event Type** from Available to **Remote**, then Save. The bar turns red and reads (T).
- Note:** If you are the one putting the provider on the schedule, skip all of this and just pick Remote as the Event Type when you create the event.

The screenshot displays the Roshal Health scheduling interface. At the top, filters for Area (Roshal), Mode (Market), and Service Type (All) are visible, along with date ranges (07-31-2026 to 08-07-2026) and an UPDATE button. The main calendar view shows a weekly schedule for Christine Pennington (FT/PT). A blue available block is highlighted on Monday, August 3rd, from 9 am to 9 pm, labeled with a red '1'. An 'Edit Event' modal is open, showing the event details. The 'Event Type' dropdown is set to 'Available', and the 'Type' dropdown is open, showing options: Available, Unavailable, Administrative, On-Call, On-Site, Dedicated, and Remote. The 'Remote' option is highlighted with a blue '3'. The modal also includes fields for Provider, Employee Traveling, Activity Type, Start, and End. At the bottom of the modal, there are buttons for SAVE, DELETE, and CANCEL, with a blue '3' next to the SAVE button. A yellow '2' is placed above the modal, and a red '1' is placed on the available block in the calendar.
