

Roshal App: Split Shifts

2026

Split Shift Overview

One shift. More ways to make it yours!

More flexibility. More shifts.

Can't commit to full 12-hour shifts all the time? No worries.

Now some available shifts are split into shorter blocks (4 or 6 hours) so you can claim time that actually fits your lifestyle!

Live In App:

Wednesday, July 22

Claim Your Time

Claim 4-, 6-, 8-, or 12-hour shifts in the app. Whatever works best for your schedule!

More Shifts. More Often.

Shorter blocks mean more open shifts available for you to claim.

Track Requests

Track your shift requests in the app and modify them anytime until they're assigned.

EXAMPLE: 8-HOUR SHIFT BLOCK

Option 1:

1 x 8-hour shift

Option 2:

1 x 4-hour shift

1 x 4-hour shift

How to Request a Shift

① In the Roshal app, the standard Provider Bulletin will appear for you once a shift is requested. Select **View** to open the Bulletin.

② Select **Bulletins** to review the open shift availability.

③ Click inside the bulletin to select the shift coverage you're available to provide.

④ On the next screen, you'll select the specific shift times you're available. Once the shift start time is selected, the shift length option will change.

*Example: selecting a 7 a.m. start time allows you to select a 4-hr. shift or an 8-hr. shift with a 30-min unpaid break.

⑤ Once the timeframe for the shift has been selected, click the **Request** button

⑥ Your request will appear for assignment. You may select inside the **Requested** box to modify your selection. Once the shift is assigned, you'll receive an alert that the request was accepted and can no longer be modified.
